

PRO-C® CONTROLLERS

Next Generation Controllers Offer Dynamic Control and Water Savings at a Great Value

With the new Hunter **P2C-400 Controller**, contractors get all the best features of the popular Pro-C line, along with an updated user interface, large backlit display, and improved sensor and operational functionality.

Simple. Flexible. Affordable.

The updated Pro-C Controller offers simple, affordable irrigation control with flexible expansion options in a compact package. Contractors can wire up to 23 stations conventionally, up to 28 stations using EZ-1 Decoders, or up to 32 stations with a hybrid conventional/two-wire system.

Optional Seconds Mode offers precise watering and flexible run times

High-visibility, backlit display enables simple setup and programming

3 independent irrigation programs (4 start times each) allow for customized scheduling

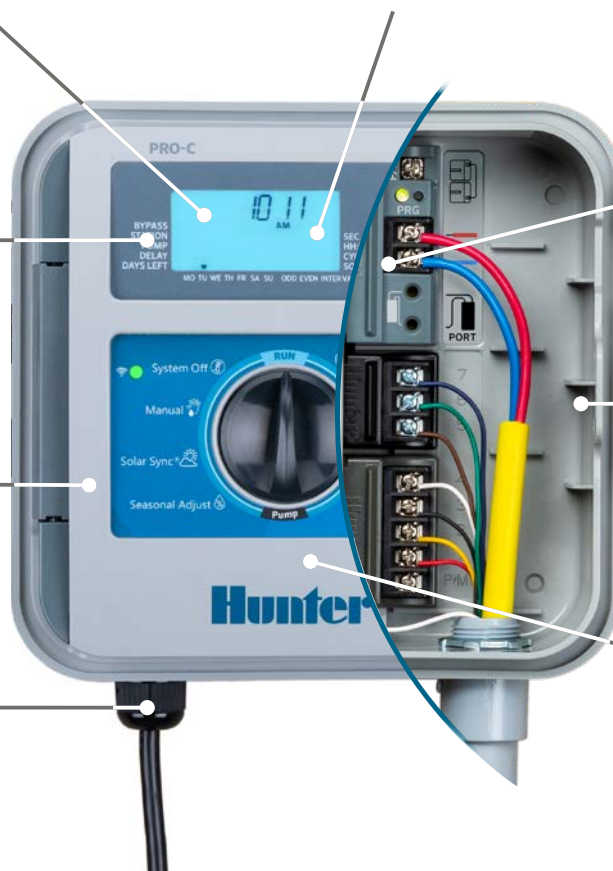

Flexible station expansion with conventional and two-wire outputs

Backward-compatible with PC-400 Controllers

SmartPort® access ensures quick connection to convenient ROAM and ROAM XL Remotes

Prewired power cord for easy indoor/outdoor installations

2 sensor inputs for use with Hunter Klik and Solar Sync® Sensors
