

# ACCU-SYNC™

VALVE PRESSURE REGULATOR

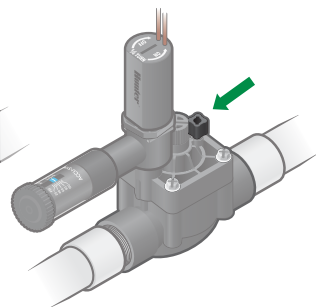

ADJUSTABLE

**Hunter®**  
THE IRRIGATION INNOVATORS

**8** Locate the **external** bleed plug, and open to remove any air.

# ACCU-SYNC™

## AS-ADJ

Regulating pressure saves water and extends the life of the irrigation system. Water savings is achieved by operating each zone at the best pressure for that equipment and application type. Accu-Sync ensures that every zone in every system stays in check for maximum water savings and longevity.

### ADJUSTABLE MODEL

fixed versions available

**AS-ADJ: 20-100 PSI**  
(1.4 to 6.9 bar)

Application:  
Full customization  
of valve pressure
