

### G80RT Series Golf and Large Turf Rotor Conversion Riser

*Riser Upgrade  
& Conversion  
For Toro™ 1½"  
Inlet Golf Rotors*

**N**eed a low-cost solution to extending the life of your aging Toro™ irrigation system? Hunter solves the problem with the introduction of the new G80RT. Designed specifically to retrofit full-circle Toro™ 1½" inlet golf rotors, the G80RT is a simple conversion kit that replaces the "heart" of your old sprinklers, extending their life for years to come. Installation is quick and easy and there are a wide range of water-efficient nozzles to meet your specific course conditions.

The RT converts your sprinkler into a closed-case rotor for greater external contamination resistance and with a 3" pop-up, the nozzle stream clears the turf to minimize wet spots around the head. Thanks to its quick and easy installation, you'll reap the benefits of improved coverage in just minutes. Upgrade your golf course without disrupting a single piece of turf. The switch is on! The Hunter G80RT is a no-dig retrofit that provides better performance...and that's no bull.

#### FEATURES & BENEFITS

##### Quick and easy conversion to the latest rotor technology

Extend the life of your existing irrigation system by upgrading to our low-cost, reliable and efficient Hunter RT gear-drives

##### G80RT adapts to 1½" inlet Toro™ golf rotors (except 690)

Our wide-range is perfect for 650, 670, 680, 750 and 780 installations no matter what year they were produced

##### Hunter RT converts your sprinklers into closed-case rotors

Helps prevent stick-ups and leaking seals caused by external contaminants and top-dressing

##### Wide range of color-coded interchangeable nozzles

The G80RT's flow and spacing capabilities readily adapt to your existing irrigation system

##### 3" pop-up with a stainless steel riser

Water stream clears the turf to help prevent wet areas around the head and the stainless riser prolongs riser seal life

##### Hunter is the world-leading producer of gear-driven rotors

You can count on Hunter RT for long-life and reliability because it is produced and backed by the Industry leader

#### PRODUCT EXPLANATION

EXAMPLE: **G80-RT**

##### MODEL

G80 = Full-Circle Riser With Nozzle Set

##### OPTIONS

RT = Toro Retro Riser Adapter Kit

**Note:** For nozzle selections and performance, reference the G880 literature GLIT-042
