## G O L F

### *Riser Upgrade Conversions for Toro® Golf Rotors*

### *Hunter RT Series*

#### *FEATURES & BENEFITS*

- Convert current sprinklers into closed-case rotors
- Low cost, reliable and efficient upgrade extends the life of existing irrigation systems
- Adapts to all 1" and 1½" inlet Toro® golf rotors (except 800 and 690 Series)
- Helps prevent stick-ups and leaking seals caused by external contaminants and top-dressing
- 40°-360° adjustable arc and 360° full-circle versions
- Performance, reliability and long life from the world leader in gear-driven rotors

**N**eed a low cost solution to extending the life of your aging Toro® irrigation system? Hunter solves the problem with the RT Series. Designed specifically to retrofit Toro 1" and 1½" inlet golf rotors, the RT is a simple conversion kit that replaces the "heart" of your old sprinklers, extending the life for years to come. The RT converts your sprinkler into a closed-case rotor for greater resistance to external contamination and, with a 3" pop-up, the nozzle stream clears the turf to minimize wet spots around the head. Thanks to its quick and easy installation, you'll be able to reap the benefits of improved coverage (including better pattern control and less overspray) in just minutes. Three different RT models are available with a wide range of water efficient nozzles, the best that the industry has to offer, ready to meet your specific course conditions. Upgrade your golf irrigation system without disrupting a single piece of turf. The Hunter RT is the no-dig retrofit that provides better performance...and that's no bull.

# Hunter RT: Quick, Clean and Easy to Install!

1. Remove internal assembly of existing sprinkler.

2. Insert the retrofit adapter sleeve. Press the snap ring into position to secure adapter.

3. Thread on adapter cap and securely tighten.

4. Insert pop-up riser assembly.

5. Snap the retaining ring in place.

6. A clean & simple conversion in minutes!

G70RT Retro Risers			
To Replace:		Use Hunter Model/Nozzle:	
TORO® Model	Nozzle	G70RT full circle	G75RT part circle

## PRODUCT EXPLANATION

EXAMPLE: **G70RT**

### MODEL

**G70RT** = Full-Circle Riser With Nozzle Set

**G75RT** = Adjustable Arc Riser With Nozzle Set

**G80RT** = Full-Circle Riser With Nozzle Set

Note: For nozzle selection and performance, refer to GLIT-037
