

IRRIGATION AND LIGHTING **PROFESSIONAL** DEVELOPMENT

GROW AND LEARN *with Hunter and FX Luminaire*

At Hunter Industries, we believe in selling through the professional channel.

That's because we know industry professionals are instrumental in ensuring that irrigation and lighting products are properly designed, selected, and installed. Hunter University is our comprehensive training program. We offer an array of online and in-person workshops, so you can stay on top of the latest products and techniques to help your business grow.

WORKSHOP TRAINING PROGRAMS

Instructor-Led Workshops

Workshops are held at Hunter's headquarters in San Marcos, California, and at select locations around the country. These trainings provide valuable, hands-on product experience and design techniques.

Hunter Campus Workshops

Irrigation System Design Workshop:

This full-day course guides you through a residential property, from initial design to finished plan.

Hydrawise Wi-Fi Controller Benefits:

This half-day workshop will teach you everything you and your crew need to know about installing, using, and growing the profitability of your business with Wi-Fi controllers.

Water-Efficient Irrigation Practices:

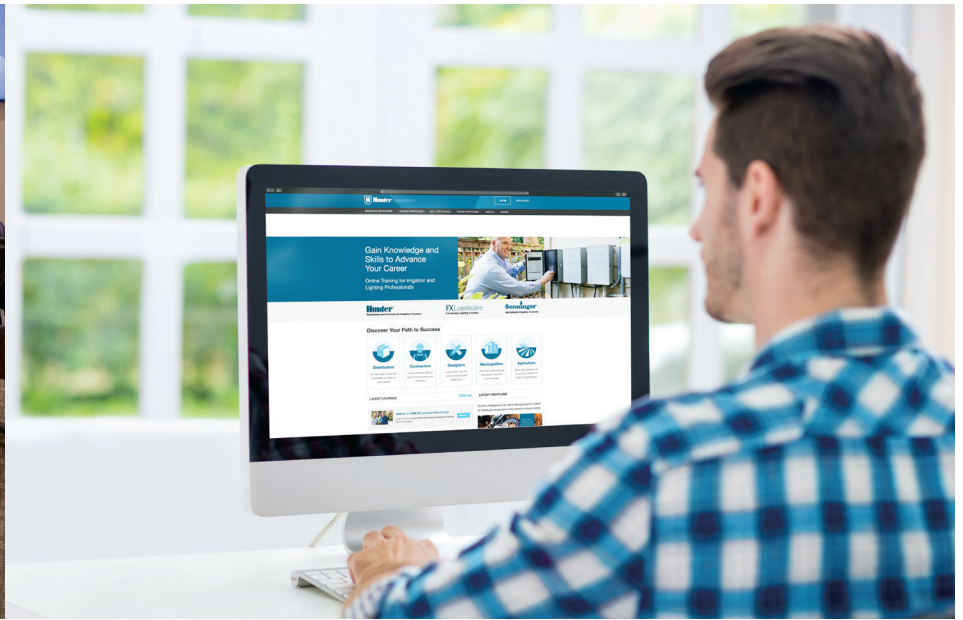

This half-day workshop will ensure you are implementing the latest water-efficient practices in your irrigation designs.

Two-Wire Design and Troubleshooting:

This half-day class will help you understand the basics of designing with two-wire technology and give you the skills you need to troubleshoot existing systems.

Expert Workshops

Hunter Expert Workshop: This three-day course offers a thorough understanding of Hunter commercial control systems. In a classroom setting, you will receive hands-on

instruction on the operation, installation, and troubleshooting of Hunter commercial controllers.

Qualified contractors, distributors, and public agency representatives with a proficient understanding of commercial controllers, installations, and electrical testing devices are invited to participate.

FX Luminaire Expert Workshop:

This two-day workshop is geared toward participants who want to expand their business in lighting. Topics include the evolution of lighting design, fixture selection, and strategies for growing your lighting business.

Irrigation Association Education

Educational Opportunities: Hunter has licensed several classes from the Irrigation Association (IA) and can provide them on request. These courses allow you to earn continuing education units (CEUs). Here are some of the courses that are available:

- Basic Electrical Troubleshooting
- Design Capacity
- Hydraulics
- Landscape Drip Irrigation Design
- Landscape Irrigation Auditor
- Landscape Irrigation Technician
- Pipe Sizing
- Precipitation Rates

ONLINE TRAINING PROGRAMS

Discover Your Path to Success

The following training programs are located on the Hunter University online training website under the Certificate Programs drop-down menus at the top of the page.

Hunter UNIVERSITY | **PRODUCT TECHNICIAN**

This program walks you through the basics of irrigation products, from controllers and valves to sprays and rotors. You will understand what products to use for specific situations, and you will learn the value of each product. *Also available in Spanish.*

Hunter UNIVERSITY | **IRRIGATION INSTALLATION TECHNICIAN**

This comprehensive online program provides introductory baseline knowledge on the various components and techniques required to successfully install an irrigation system.

Hunter UNIVERSITY | **SKILLS S.T.A.R. DISTRIBUTOR**

Designed for distributor branch employees, this program provides an overview of the skills needed for employees to advance their career paths in distribution. To sign up, use the enrollment code "GROWCAREER." *Also available in Spanish.*

Hunter UNIVERSITY | **IRRIGATION DESIGNER**

Learn the fundamental steps of creating an irrigation design, including layout, hydraulics, and product selection.

Hunter UNIVERSITY | **HYDRAWISE® SPECIALIST**

Wi-Fi technology is changing homeowner expectations about irrigation controllers. Find out all you need to know about Wi-Fi installation, weather stations, smart home integration, contractor tools, and more.

Hunter UNIVERSITY | **ACC and TWO-WIRE SPECIALIST**

ACC Controllers provide a range of advanced features. Learn how to install, program, and troubleshoot conventional and two-wire ACC systems.

Hunter UNIVERSITY | **LIGHTING TECHNICIAN**

This innovative program is designed for professionals of all skill levels. Whether you're brand new to the lighting industry, looking to learn new design techniques, or simply want to learn more about industry-leading FX Luminaire products, this 10-course program will give you the foundational knowledge you need to succeed.

Hunter UNIVERSITY | **LIGHTING DESIGNER**

This program features expert lighting designers who reveal how they design properties using different techniques. This is a great way to learn about the art and science of lighting design and the products that provide desired effects.

If you are interested in attending a workshop, use the link below to let us know what topics or dates you are interested in. We'll work with you to schedule your training.
